

Marketing via Aerial Photography Services

Elite Aerial Photography;
Powerful Images for your Marketing Materials,
Enhancing your product and/or brand

Aerial photography & cinematography can enhance your existing company or product marketing materials

We use state of the art Unmanned Aircraft Systems (UAS); also known as RPAS, UAV or Drone to take up to 20 megapixel still images (f/2.8 – f/11) and we can also shoot video with the H.264 & H.265 codecs ;

@C4K, 4K & 2.7K (upto 60 frames per second)

FHD & HD (upto 120 frames per second)

For more information : Contact us : www.gorilladrones.co.uk | +44 (0)7796 938 601 | www.twitter.com/gorilladrones

Once engaged with Gorilla Drones LTD, a qualified UAS pilot will make contact with you to scope your requirements and work with you until the project work is complete to your satisfaction, ensuring that all regulations and safety measures needed are adhered to

Engaging with us ensures that you capture your marketing imagery in a legal way, as there are many illegal operators in the market place. We are fully endorsed by the Civil Aviation Authority (CAA) with a permission to fly for commercial operations (PfCO) and have all of the necessary regulatory insurance in place to make sure the operation you require is safe and legal
